Notice

Look closely at what matters.

Try

Choose one useful action.

The idea

Explain the central idea.

An example

the second panel must be present in the PDF.

Card 1

What makes an idea useful?

all sides travel in this edition.

1. **Notice**

   Identify what matters.

2. **Act**

   Try one practical step.

3. **Reflect**

   Consider what changed.

1. **Before**

   Describe the starting point.

2. **After**

   Explain what changed and why.

Replace this illustration with an image that supports your lesson.

1. **Look here**

   Explain this part of the image.

2. **A connection**

   Connect this detail to your main idea.

Explain one idea clearly. Give your learners a concrete example, then connect it to something they can do.

Put the idea into practice

Explain one idea clearly. Give your learners a concrete example, then connect it to something they can do.

Start with a useful question

A closer look

> A useful lesson gives people something they can use.

> ## Note
>
> A useful reminder: small steps make a good place to begin.

> Understanding grows when we connect an idea to an experience.

OpenScroll starter quotation

- Notice what matters.
- Try a small, practical step.
- Reflect on what changed.

1. Notice what matters.
2. Try a small, practical step.
3. Reflect on what changed.

Checklist

- Notice what matters.
- Try a small, practical step.
- Reflect on what changed.
